## All About Hair

We have chosen '**Alterna**', a luxurious American hair care brand, established since 1997 and recently co-owned, endorsed and promoted by Katie Holmes. Using only natural and organic products with good-for-you ingredients with no sulphates or parabens added.

The range includes; Caviar, Seasilk, Bamboo, Kendi and Hemp Seed Oil, Indian Gooseberry and many more.

We appreciate and understand the effects that the sun, heat and humidity have on your hair and are now able to offer you the ideal service and products to help combat these effects.

With the help of a personal consultation with your stylist you will be able to select one of the following treatments ensuring your hair receives the protection, hydration and nourishment required for strong, glossy, frizz-free hair.

We offer shampoo and blow dry, styling and a selection of quick efficacious, intensive hair conditioning treatments.
